Albany State University
Center for Advanced
Logistics Management (CALM)

Solution Services

The Road to Resources.

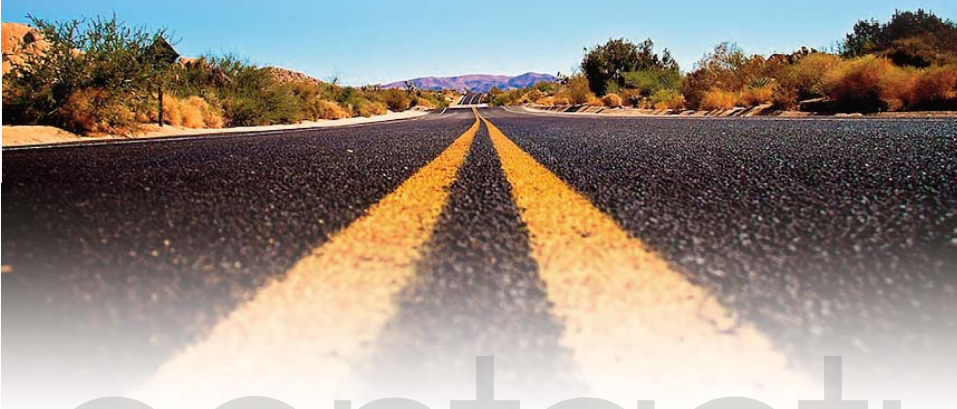

Albany State
University 
POTENTIAL. REALIZED.

SOLUTION SERVICES

CALM

We provide on-site assessment and scope analysis in order to structure a support relationship that provides the most value to our customer. CALM Services uses internal ASU resources as well as external resources consisting of highly skilled experts currently working in industry to provide solutions that are on the cutting edge of supply chain and logistics theory and practice.

We can provide training and education either on site or on line. Our courses lead to certifications and college credit as well as non-credit courses.

WHAT WE DO

CALM Supply-Chain and Logistics Solution Services will provide a network of academic and industry experts to provide innovative supply chain and logistics solutions in terms of customized certifications, education, training, and consulting to organizations (private and public) with a special focus on MCLB Albany and the defense industry. This plan will transition CALM from an advisory role into a fee for service supply chain and logistics solutions provider for government and non-government entities. CALM will look and operate like the model below.

“CALM Services is a consulting shop designed to provide customized, client driven solutions which increase the effectiveness and efficiency of supply chain and logistics organizations.”

– Dr. Bruce Strom
Executive Director
Albany State University CALM
